

WORK AT XSTREAM

– We are always on the lookout for sparkly, passionate people

Senior Java Developer

Warsaw

Join a company constantly looking to push the boundaries of new technology and work with the most innovative minds in the industry.

About Xstream

Xstream develops software for managing Online Video Solutions, called MediaMaker. Our software is used by several major media companies and enterprises for managing video on multiple platforms, and is the foundation of several major Internet TV and VOD services in Scandinavia, Europe and US. Among our customers you'll find Disney, Fuhu, SES Platform Services, Canal Digital, SBS Discovery Media, Pathé and many more.

Our HQ office is located in central Copenhagen, and we have a Development center in Poland, Warsaw, as well as a North American sales office.

You must have the following qualifications

- Experience in design and development of Java applications
- Practical experience with Java, Spring (Data, MVC, Security, Boot, Integration, Cloud),

Hibernate

- Experience with messaging systems like RabbitMQ, JMS
- NoSQL storages: Redis, Mongo, SOLR, DynamoDB
- Knowledge of Design Patterns for building distributed and scalable services
- Experience in building highly scalable, distributed services (preferably REST based)
- Deep knowledge of concurrency, resiliency, caching, HTTP and REST
- Experience with TDD, Continuous Integration, SCRUM
- Practical knowledge of build tools: gradle or Maven and test tools: JUnit and Mockito
- Well understanding of Linux based systems (Centos, Debian, Ubuntu)
- Fluency with Docker
- Practical experience with SQL

Nice to have:

- Experience with AWS - Knowledge of at least one frontend framework (e.g. Angular) -
Service Discovery: Zookeeper, Eureka, Consul
